

SPREADSHEET SERVER

COMBINE THE FAMILIARITY OF MICROSOFT® EXCEL
WITH THE POWER OF YOUR ERP DATA

Bridge the operational gap between company data and reporting for resource savings and streamlined data analytic processes in a secure environment with the power of Spreadsheet Server. While maintaining the functionality of the Excel spreadsheet application, Spreadsheet Server allows you to mix GL and non-GL data from multiple platforms into a single worksheet, creating financial and operational reports with drill-down capability using live data right from your ERP.

Eliminate requirement for IT or super-users to create/change reports

Use the narrative reporting feature of Spreadsheet Server to automatically generate your pre-formatted Excel reports in Word, PDF, or HTML format

Reduce data calculation times by incorporating big data with SMARTcache™ (IMDB)

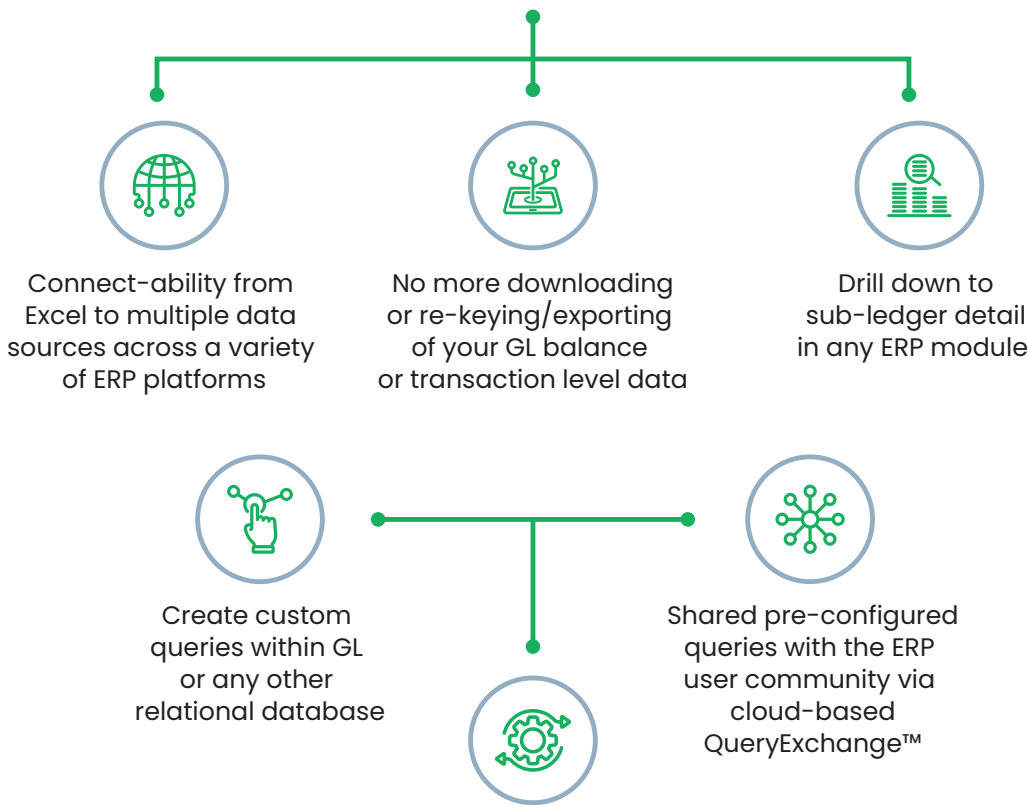

No staging area or data warehouse required

Deploy in minutes

Spreadsheet Server works as an intuitive Microsoft® add-in providing live reporting and analysis from your ERP into Excel.

ACCESS LIVE ERP DATA

REPORT GENERATION

Spreadsheet Server has the ability to dynamically access any module in your ERP: Financials, CRM, PO, Inventory, Sales, AP, AR, and many more.
