Adding Value to Lives

We Look Forward to...

- Amstar is keen to be engaged with our government to help build a strong employable IT Technical Workforce in the country and eager to participate in providing IT Technical skill sets to people in their respective fields of work to increase the overall efficiency.
- Amstar can actively participate in government programs centered on delivering IT, Functional and Soft-skills education and training to colleges, vocational technical training institutes, unemployed graduates, rural BPL youths, minority communities, other beneficiaries of Government programs and employees of Government organizations.
- Amstar wish to remain partner and play important role in Government engagements like IT Training / Service initiatives, where our services have high degree of relevance.
